P 0.1 Connexion doméstique: Pour alimentation en courant pour tous les essais.

P 0.1 House Service Connection To supply voltage to all experimental set-ups. Three built-in isolating transformers are connected to 3 x 230 / 400 V AC supplies. The isolating transformer of the conductor L1 has a particularly low resistance to allow realistic measurements of short-circuit currents. Components: Connection plug: Cekon, 16 A 1 Isolating transformer 230/230 V AC, 6 A 2 Isolating transformers 230/230 V AC, 0.1 A Supply voltage: 3 x 230 / 400 V AC, 50(60) Hz Dimensions: 319 x 297 x 260 mm (W x H x D) Mass: 8.1 kg
