**Débitmètre d'hydrogène pour système NEXA 1200 W
OEM avec interface USB, logiciel et alimentation**

Measuring range: 25 slpm (during hydrogen flushing the maximum mass flow rate that can be displayed is exceeded)
Connection: 2 x G1/4
Seal: FKM
Housing: Stainless steel
Measuring precision ± 1.5 % of the final value
Reproducibility: ± 0.2 %
Voltage 24 (18?30) VDC
Operating pressure 1?15 bar, recommended 1?5 bar
Temperature: 0?50 °C
Output signal: Analog 0?5 V, digital RS485
