**Débitmètre d'hydrogène pour système NEXA 1200 W  
OEM avec interface USB, logiciel et alimentation**

Measuring range: 25 slpm (during hydrogen flushing the maximum mass flow rate that can be displayed is exceeded)  
Connection: 2 x G1/4  
Seal: FKM  
Housing: Stainless steel  
Measuring precision  $\pm 1.5$  % of the final value  
Reproducibility:  $\pm 0.2$  %  
Voltage 24 (18?30) VDC  
Operating pressure 1?15 bar, recommended 1?5 bar  
Temperature: 0?50 °C  
Output signal: Analog 0?5 V, digital RS485
